## Show Results: South of England Classic Bike Show & Bikejumble Sunday 29 October 2023

Year Make Model cc / HP Classes Entered Pre 1950 Lightweight Overseas 211 1902 Minerva Club: Roaring Twenties MCC Bike Details: This Pioneer motorcycle is fitted with a surface carburettor. Made in Belgium 112 years ago and still going strong! 23 Pre 1950 Lightweight 1912 Hazlewood 293 Sunbeam MCC Club: Bike Details: This is one of only three single-cylinder Hazlewoods known to exist. 1912 was the first year of manufacture. Pre 1950 Lightweight 22 293 1913 Hazelwood Club: Sunbeam MCC Bike Details: One of only three single-cylinder Hazlewoods known to exist. 93 Pre 1950 1916 P&M 3½hp Touring Model 3½h Club: Sunbeam MCC Bike Details: This bike has recently undergone a complete nut and bolt restoration. I have owned it for around 60 years & paid 50 shillings for it from Reg Berry of Terrible Down near Halland, East Sussex. It was in a very poor condition, the engine was worn out, having been used to pump water from a well. The mudguards, frame and rear carrier were good as they were stored in the loft, but I didn't have handlebars, levers, etc. nor petrol tank, saddle, magneto or carburettor. I only had a rear wheel which was in a dreadful state. I bought the remains of another P & M as patterns to help me complete this one. 48 1924 Norton 16H 490 Pre 1950 Club: Roaring Twenties MCC Bike Details: The last of the lightweight side-valve Nortons, as the years went by they got heavier and slower! A fast machine for its day, with only three owners from new. Used for many years with a side-car attached by a plumber in Wales as his work vehicle. 46 1926 Cotton **Brooklands Blackbur** 23/4 Pre 1950 Lightweight Competition / Special Club: Roaring Twenties MCC Bike Details: This motor cycle is a replica of the type of machine that would have been used at Brooklands during the mid to late twenties. The 350cc engine is a genuine ex-Brooklands motor that came from Mr FC Millar, and was raced by him in the twenties. Pre 1950 120 1926 Norton 18 500 Club: Roaring Twenties MCC Bike Details: I have owned this bike for about 4 years, it was originally owned by the same owner (who raced at Brooklands in the 1930's) as the Model 19. A far as I know he used the two bikes at competition meetings. It has been restored. 154 **1928 Scott** 600 Pre 1950 Flying Squirrel Club: **British Owners Club Essex** Bike Details: First registered November 1928. Pre 1950 44 **1929 Ariel** E (Black Ariel) 500 Club: VMCC (East Sussex) Bike Details: Built up from a basket case about five years ago. The '80' stamped on the crankcase means it left the factory with a guaranteed top-speed of 80mph. Pre 1950 85 1929 Matchless V2 500 Club: AJS & Matchless OC (Sussex) Bike Details: OHV sporting machine. Found in South Africa and was brought to the UK 1998. The slogan was" built for the sporting gentleman" It is guaranteed to reach speeds off up to 85 mph. Manufactured for 2 years only 1928/1929. Made by the Collier Brothers to enable the rider to enter road time trials and other specialist events

|                                                                | i eai                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Make                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Model c                                                                                                                                                                                                                                                                                                                                                                                                                                    | c / HP I bought it from my from the form of years ago.  Very kind and knowledgeably on the road and I love ridinantams from the group.  G80 CS                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | rs when I bour rusty. The use nd non stand sopposed to racing cams a gine was dismery sweet, but engine has a 500 Club:  er 125 Club: e well known riend's brother where it remains only it as well 500 Club:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | ight it. There were many T120 unit is sual parts were replaced, such as ard parts were replaced. I thought the more often seen pale blue and high compression pistons antled) This of course means that it even when running it in, I have not lot of get up and go.  1960-69 BSA OC (East Sussex)  1960-69 Lightweight BSA Bantam Preservation Group dealership of Pride & Clarke in in for £35 way back in 1976. ined in various boxes / states of of the BSA Bantam Preservation as displaying it at shows and    |

Year Make Model cc / HP Classes Entered 1960-69 Competition / Special 42 Dominator 99 Cafe R 600 1961 Norton Club: Norton OC (Surrey) Bike Details: This machine was re-imported from the USA in 1984 and first registered in the UK in 1985. Purchased by the present owner in May 2007 as a part-finished project bike, and now in the custom style of my youth. The most difficult modification was removing the tinware primary chain casings and replacing them with a set of early Commando alloy casings. The timing side and oil delivery was a challenge as the top-end cylinder head totally filled with oil after a few miles. A 650cc downdraft head with twin-carbs and a set of swept-back pipes with big-bore silencers have been fitted, together with an aluminium slimline petrol tank and a custom-made oil tank. The rest is down to hours of polishing, to produce a sixties Cafe Racer. I cover about 500 miles a year enjoying Norton Rallies at home and abroad. 149 1961/8Matchless / P 1960-69 Competition / Special **CSR Turned Head** 650 Club: Bike Details: 'The Throwback' - this is a 1980-styled Arlen Ness lowrider. The frame is by Dave Batchelor of 'P&D'. Paint by Keith Baker of Classic Cycleworks. 24 1960-69 Lightweight 1962 AJS 14 250 Club: Bike Details: From boxes of bits to this. 144 1962 Ducati 250 1960-69 Lightweight Overseas **Daytona** Club: Bike Details: Early 250cc bevel driven OHC, a mini Manx Norton! The first production Ducati 250 debuted at the Milan Fair in April 1961. It was called the Diana but for some unknown reason was renamed as Daytona in the UK. First registered in the UK on 21st September 119 750 1960-69 Competition / Special 1962 Triton Café Racer Club: Sussex British Motorcycle OC Bike Details: 1962 Manx Norton frame fitted with a Triumph Speed Triple front and rear. Ducati sub frame and seat. 12 3TA 350 1960-69 Lightweight 1962 Triumph **British Owners Club Essex** Club: **Bike Details:** 1960-69 78 1962 Triumph **Bonneville T120** 650 Club: Bike Details: The last of the pre-unit twins. Exported to Austria when new and returned to UK many years later to be restored to its present condition. Comfortable ride, although vibrates like hell over 90mph. 4 1963 BSA **DBD34 Gold Star** 500 1960-69 Competition / Special Club: BSA OC (West Sussex) Bike Details: With original frame and engine numbers as delivered from the BSA factory on 18th January 1963, this is one of the last DBD34 Gold Stars assembled. Fully restored by Steve Tonkin in 1996 and maintained to a high standard ever since. This is a genuine machine. 77 1963 BSA 1960-69 A10 Rocket Gold Star 650 Club: Bike Details: Abused as a cafe racer in the 60s before the present owner bought it £70 as a wreck in 1974. Restored over the years to include indicators and an ignition key. Close ratio gearbox not ideal in slow traffic and the magneto makes kick-starting an exhausting business. 79 1963 BSA **Rocket Gold Star** 650 1950-59 Club: Bike Details: RGS with Dunlop rims, buff log book original Registration 207 DFR with V5. Won loads of awards, has twin leader original Taylor Dow front brake, and Dow top yoke, competition magneto and is in show condition. Exhibited by Surrey Cycles, the carburettor specialists - find them outside in the 'jumble today.

No Year Make Model cc / HP Classes Entered 1960-69 Lightweight **B175 Bantam** 175 1969 BSA Club: **BSA Bantam Preservation Group** Bike Details: This Bantam was found near Worthing in 2010 with matching engine and frame No's, The condition was very poor but has been restored engine rebuild with electronic ignition and 12v lighting, wheel rebuild with new rims and tyres 147 1969 BSA A50 Royal Star 500 1960-69 BSA OC (East Sussex) Club: Bike Details: First time at this event for this 500cc parallel twin. 15 1960-69 1969 Seeley **G50** 500 Club: **BRT Racing** Bike Details: Seeley Mk 3 G50 the engine is full race, Six Speed gear box and belt drive. 1960-69 58 1969 Triumph TR6 650 Club: BSA OC (East Sussex) Bike Details: UK Model. 1960-69 99 **Bonneville T120R** 650 1969 Triumph Club: Bike Details: In American West Coast Spec, a good used reliable bike that rides like a stallion very rarely used! 3 1970 On 1970 BSA A65L 650 BSA OC (East Sussex) Club: Bike Details: Built in August 1970 and shipped to Pride & Clarke in 1971. Sold and registered in 1972, with matching engine and frame numbers it's had six owners from new. 1970 On 68 1970 BSA A65 Lightning 650 Club: Bike Details: Restored in 2006, regularly used on the road. This Lightning is one of the last of the pre oil-inframe machines. With the Starfire styled tank that was fitted for 1970 only. Won the 1970-on class at this Show in 2016. 57 1970 On Overseas 1970 Honda CB750/4 K1 750 Club: Bike Details: Honda CB750 Four K1 US Import colour Blue with 20901 miles on the clock in original unrestored condition not bad for a 54 year old bike 1970 On 129 1970 Lambretta GP TS1 225 Club: Bike Details: Full nut and bolt bare metal rebuild! 1970 On 11 650 1970 Norton Mercury Club: Norton OC (Surrey) Bike Details: This unrestored Mercury is the last of the Norton Dominator Twins - minor mods to make it safer in modern traffic are twin leading shoe front brake and indicators. Other than that this bike is still running the original alternator, rectifier and of course contact breaker points. Ridden 40 miles from Guildford this morning so is naturally a bit dirty. A cracking riders bike and would be available for the right offer. The Norton Mercury is the last of the Dominator twins, released to the market between 1968-1970 following the introduction of the Norton Commando. These are basically a Norton 650ss but with a single Amal carburettor instead of twin carbs. Some were fitted with a rev counter but this was not standard on this model. The cylinder head is similar to the early Commando heads and already engineered for leadfree petrol. This bike has featured in a book on Norton Twins and also featured in Real Classic magazine. 1970 On 16 1970 Seeley 750 **Boyer** Club: **BRT Racing** Bike Details: Seeley Triumph 750/3 number 9 of the 9 built for racing to compete with the Rob North Triples.

No Year Make Model cc / HP Classes Entered 84 2015 Triumph Rocket X 2300 Club: Triumph OC (West Sussex) Bike Details: I have owned this 10th anniversary, limited edition, Rocket X since new. The number is 348/500. In 2016 I rode it through 30 European countries in exactly 90 days. I was accompanied by my son on a Triumph Bonneville Newchurch. We started our journey on 23 June from Newchurch (Neukircken) in Austria where we attended the TriFest. The Rocket is the most comfortable bike for touring I have ever ridden and hope to keep it for at least another 10 years when we celebrate 30 years of the Triumph Rocket 3 production. 106 2015 Triumph **Newchurch Bonnevill** 865 Club: Triumph OC (West Sussex) Bike Details: Second owner. With the West Sussex Triumph OC. 65 2016 Triumph 900 **Thruxton** Triumph OC (West Sussex) Club:
